

My name is Doreen Marty. My family and I have been residents here at Heritage Ranch for the past 15 years. My husband and son and I moved here from the Santa Maria/Orcutt area in order to enjoy a more relaxed and quiet atmosphere. My son Jered, his wife Julie, and daughters Alyssa and Aliyah, live around the corner from my husband Mark and me. I love the outdoors, and rarely need or want to leave this beautiful place we live in. I regularly walk our trails and streets with my dogs Bean and Ally, and I have two horses that I keep in the Equestrian Center, Boone and Rose. I spend a lot of time on our trails, and in the Equestrian Center. Mark and I enjoy boating, and we are thankful for our private launch ramp and access to Lake Nacimiento. We have made many memories here at our lake.

I began my career as a restaurant manager for Wendy's. I enjoyed the fast pace and the challenging dynamics of leading a team of people towards Wendy's high expectations for quality, service and cleanliness. My team regularly received awards at corporate level in these areas. I learned early on that the best way to lead, for me, was to listen to my team and to gather information before making decisions. I was able to make informed decisions and received the backup from my team that I needed. I am currently the Controller for Bad To The Bone Management, which owns several successful restaurants and a large food concessions business. I manage the budgets, costs and all financial information for my boss, along with all personnel management. I am still using the same leadership skills I learned many years ago, and they still work for me today.

I think I would make a good addition to our Board of Directors. I have a strong work ethic, and am an open and honest person. Anyone that knows me will say I listen more than I talk, and that is because I feel that's how I grow as a person, and as a member of a team. I bring many years of financial experience, as well as a level-headed approach to decision making. I feel that the biggest responsibility of a Board member is to make informed decisions, in part by involving the teams' opinions and outlooks, which in this case is our community members. I think I am up for that responsibility.
